

DUTIES AND RESPONSIBILITIES OF THE MEMBERS OF THE MANAGEMENT BOARD AND SUPERVISORY BOARD IN RELATION TO SUSTAINABILITY

The Management Board proactively drives progress on sustainability topics and plays a central role in monitoring, managing, and overseeing the impacts, risks, and opportunities. It is informed about sustainability topics during regular board meetings and is involved in monitoring actions, setting new targets, and addressing emerging challenges.

In close coordination with the administrative, management, and supervisory bodies, voestalpine's sustainability-related goals were defined in terms of material impacts, risks, and opportunities as part of the development of the Group Strategy 2030+ and the associated sustainability strategy. The progress and achievement of the goals is monitored as part of the annual strategy review process.

Strategic responsibility for sustainability within the Management Board lies with the CEO. The corresponding operational tasks are handled by the sustainability organization, led by the Head of Group Sustainability, and by the Corporate Development department. Further information on the composition and tasks of the Group sustainability organization can be found in sections GOV-2 and GOV-5. Regular reports to the Supervisory Board of voestalpine AG enable effective oversight. This oversight also acts as a central control procedure for the management of impacts, risks, and opportunities, and results, for example, in the Group-wide resilience analysis, which assesses the company's resilience to climate-related risks and opportunities (for more information on resilience analysis see SBM-3 E1 Climate change and IRO-1 E1 Climate change).

GOV-2 – Information provided to and sustainability matters addressed by the undertaking's administrative, management, and supervisory bodies

The CEO is responsible for the sustainability strategy of voestalpine AG, while the member of the Management Board responsible for the Finance division is responsible for risk management. The Group Sustainability department, which was newly created in 2023, acts as a central coordination point for the sustainability strategy. The Management Board receives regular reports from the divisions and business units on key sustainability matters. The reports cover impacts, risks, and opportunities as well as the implementation of the sustainability due diligence. In addition, they include the results and an assessment of the effectiveness of the agreed policies, actions, metrics, and targets.

The Supervisory Board of voestalpine AG oversees the Group's risk management system and sustainability efforts. SBM-3 details the impacts, risks, and opportunities that have been identified as material to voestalpine. The objectives of the sustainability strategy are central to both day-to-day operations and long-term projects.

The material impacts, risks, and opportunities are taken into account by the Management and Supervisory Boards in strategic decisions and significant transactions.

In the business year 2024/25, the Supervisory Board and Management Board of voestalpine addressed all significant IROs in accordance with SBM-3.
